

You have the power to save a life.

Paul, 29, is a beloved son, brother, friend to many. He recently relapsed from leukemia and needs to find matching blood stem cell donor.

We are inviting all ethnicities to register as a committed member. There are thousands of blood cancer patients just like Paul that are waiting and hoping to find a life-saving match.

Paul will most likely match someone from his mixed Japanese and Jewish ancestry. Unfortunately, there are only about 3% multirace on the Be The Match Registry!

You could be the CURE!

If you are between ages 18-44, meet our health guidelines and are committed and willing to donate to any patient in need,
WE NEED YOU!
